

ART GUILD OF PADUCAH

Reflections on America

My husband David and I just returned from a camping trip to the east through the eastern seaboard around Chesapeake Bay, Washington D.C., the New Jersey seashore, New York, and Pennsylvania. Everywhere we went we saw elements of the country's 250th year celebration, from special exhibitions at museums like the National Portrait Gallery to light post banners in small towns throughout the area honoring the service of local veterans.

"RESILIENT"
JULIE STOVER

The Guild is taking part in that celebration with our major show "Americana". Our artists will interpret this nation's birthday through new works of art telling the story of America. Over 30 works of art will be exhibited throughout the months of June and July, each a snapshot, an iconography of ideas representing our country.

With summer upon us, I hope your plans might include enjoying some of the beauty and wonder that exists within our country. David and I experienced both new and familiar places. What a diverse and amazing country we live in!

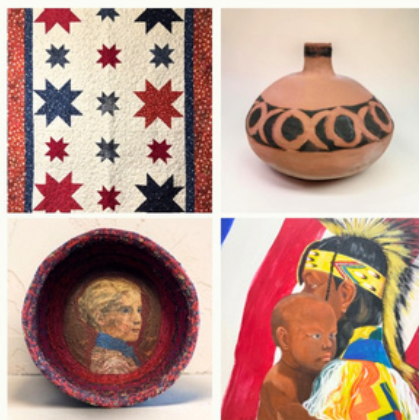

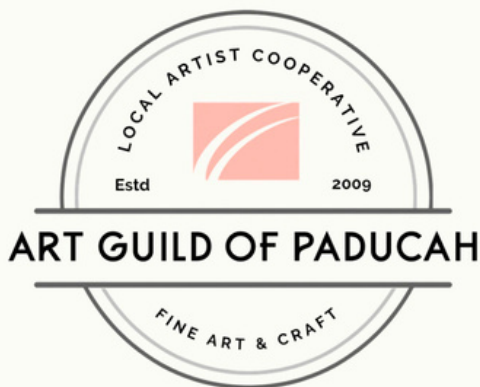

Wishing you a happy summer!

Stefanie
President Art Guild of Paducah
